AMOUNT OF MONEY AND SOURCE:

This action does not entail any expenditures or commitment of funds.

BACKGROUND/EXPLANATION:

This Agreement is submitted to the Board in conjunction with Amendment No. 1 to the Programmatic Agreement regarding Project C.O.R.E. - Demolition and Stabilization Actions among the same parties. Amendment No. 1 provides for a fifth phase of Project C.O.R.E. and becomes effective upon execution by the Board, and extends the expiration date of the Programmatic Agreement from September 8, 2021 to September 8, 2022.

Project Creating Opportunities for Renewal and Enterprise (C.O.R.E.) is a state-funded program which began in 2016 that undertakes, among other things, to demolish thousands of blighted properties in Baltimore City. The Maryland Historical Trust Act of 1985, as amended (the Act), requires that the State or any entity acting with state funding, consider the impact of the undertaking on historic resources, and act to avoid, minimize or mitigate any adverse effect the undertaking may have. Much of the demolition activity under Project C.O.R.E. is occurring in historic areas of Baltimore, and the demolition has been determined by the Trust to be an adverse effect on the historic resources.

On September 8, 2016, the Board approved a Programmatic Agreement among the Department, the Trust and the City governing the compliance of Project C.O.R.E. with the Act. That original Programmatic Agreement provided for four phases of Project C.O.R.E. and became effective on September 8, 2016.

MWBOO has found that on this particular contract, 3 vendors were awarded as primes and most of the work went only to C & W Construction Company, Inc. This prevented JB Contracting, Inc. from planning work to include MBEs and WBEs. The WBE informed the prime that they were not available to perform any work when the contract was started. Despite the lack of work issued by the City, MWBOO did not find grounds for considering this a good-faith effort because the MBE subcontractor could have been utilized. There is an agreed plan in place to use the WBE. Conciliation meetings were held with both subcontractors. The MBE subcontractor has been asked to be removed from the contract.

AMOUNT OF MONEY AND SOURCE:

BACKGROUND/EXPLANATION:

On August 10, 2016, the Board approved the award of TR 16020, Comprehensive Conduit Facilities Management Services in the amount of \$26,108,286.00 to fund the first year of this five-year contract. The contract has since been funded incrementally to cover pending tasks through mid FY 2020. On December 19, 2018, the Board approved an additional \$24,000,000.00 of incremental funding to cover tasks in FY 2018 and FY 2019. Lastly, on January 8, 2020, the Board approved an additional \$12,000,000.00 of incremental funding to cover tasks in FY-20.

This modification is in accordance with the Board approved BGE settlement agreement on November 30, 2016, which provides for the use of emergency reserve in the Conduit System enterprise accounting fund for use in connection with unexpected, extraordinary and emergency reactive maintenance work related to the Conduit System.

The Emergency Reserve Fund goes towards the sustainability of continued and supplemental services to support the essential scope of the Conduit Program during the COVID-19 pandemic and other emergency conduit repair work.

It is, still, the Department's intent to request incremental funding, annually, until the contract expiration. This modification will enable the Department to continue its efforts to revitalize the City's conduit system, a vital and important piece of the City infrastructure that is integral to several current and future City programs.
