The transfer will provide funds to the Department for the replacement of the roof on two City-owned buildings at 2300 Maryland Avenue and all associated in-house costs. This project will include the rehabilitation of both the cornice and gutters. The roof is in need of full replacement while the cornice and gutters are considered historic and require localized replacement in order to correct the water leakage

problem. The facilities at 2300 Maryland Avenue have roof leaks, which affect the normal operation and function of the buildings. A full roof replacement, including rehabilitation of the historic cornice and gutters, is necessary to alleviate these conditions and correct the water infiltration into the buildings.
