BACKGROUND/EXPLANATION:

On July 14, 2010, the Board approved the original card services agreement with Global in the amount of \$217,400.00 for the period of June 14, 2010 through June 30, 2017.

AGENDA

BOARD OF ESTIMATES

PABC - cont'd

On June 21, 2017 the Board approved a one-year extension through June 30, 2018.

This Agreement provides credit card processing services for all of the PABC's revenue collecting functions. The PABC accepts credit card payments at parking garages, at parking meters, at the PABC walk-in office, and at the Residential Permit Parking website (PABC Programs). Accepting credit card payments has facilitated many of the revenue controls implemented by the PABC, while providing convenience to customers of the PABC/City's various programs.

In 2003, the PABC began installing parking access and revenue control equipment in City-owned off-street parking facilities (completed in 2006) to: provide better cash management; allow for credit card acceptance; and to make overall operations more efficient. In 2003, the PABC began accepting credit card payments online and at the PABC office for Residential Parking Permits. Beginning in 2004, the PABC began upgrading the City's on-street parking meters to, among other things, allow for credit card acceptance. Much of the success of the PABC's revenue collection duties can be attributed to credit card acceptance.

The number and value of credit card transactions has more than doubled over the past several years and will continue to grow as additional meters and programs are added to the PABC's services. The increased volume of transactions has correspondingly increased credit card fees substantially. The PABC currently averages 338,370 transactions per month, generating approximately \$1,833,511.00 in credit card sales per month for all the PABC Programs, with associated credit card processing fees averaging \$238,970.00 per month.

The PABC processed these transactions using multiple credit card processors at multiple points of sale with varying associated fees, prior to this Agreement with Global. The PABC has realized substantial savings in consolidating credit card processing with Global.

BOARD OF ESTIMATES

PABC - cont'd

This Card Services Agreement will continue to:

- provide debit and credit card processing services, along with other related merchant services to multiple PABC Programs with varying requirements,
- secure economies of scale to improve pricing,
- ensure timely and reliable authorization of credit/debit transactions,
- provide reporting products that meet the requirements of individual PABC Programs and PABC,
- consolidate processing, and
- establish a single point of contact for coordination of all activities, including adding new PABC Programs, problem resolution (settlement, billing, reporting, etc.), adapting to and incorporating new technologies, etc.

The PABC has realized hundreds of thousands in savings annually as a result of consolidation of merchant services under this Agreement. The PABC is developing a Request for Proposals (RFP) that will attempt to further reduce merchant service fees in the future. The result of that RFP will be coming to the Board of Estimates in the next year.
