Solicitation Application

ACTION REQUESTED OF B/E:

The Board is requested to endorse a Governmental/Charitable Solicitation Application for submission to the Board of Ethics of Baltimore City to allow Mr. Zeke Cohen and staff to continue to solicit donations for a Southeast Community Association Neighborhood Fund. The period of the campaign will be effective upon Board approval through January 31, 2020.

AMOUNT OF MONEY AND SOURCE:

No general funds are involved in this transaction.

BACKGROUND/EXPLANATION:

Donations will be solicited from Baltimore businesses, civic leaders, the foundation community and the general population. A potential donor list will be comprised of individuals and corporate entities that contribute to the economic, social, and cultural vitality of Baltimore City. Most of the individual and corporate entities fitting that description are not controlled donors. However, those potential donors who are controlled donors with respect to the City Council or the Board will not be targeted or singled out in any way and will be solicited, if at all, in the same manner as the other potential donors.

Neighborhood associations are critical components of healthy communities that play a positive role in actively engaging community members in community-related initiatives, concerns and events. Recognizing the importance of how neighborhood associations are struggling to increase their monthly participation due to challenges in access to translation services, childcare services, and other services that would provide support for other residents to actively participate in these meetings.

The lack of these services leaves out many residents from the Latinx community and working parents from being actively involved with their neighborhood associations.

Office of the City Council - cont'd

The Office would like to work with the Southeast Community Development Corporation to start a neighborhood fund that neighborhood associations in the First District would be able to use to pay for these services to increase the overall monthly participation and better represent underserved populations.

Baltimore City Code Article 8, Section 6-26, prohibits solicitation or facilitating the solicitation of a gift. An exception was enacted in 2005 to permit certain solicitations that are for the benefit of an official governmental program or activity, or a City-endorsed charitable function or activity. Ethics Regulation 96.26B sets out the standards for approval, which includes the requirement that the program, function, or activity to be benefited and the proposed solicitation campaign must be endorsed by the Board of Estimates or its designee.

The Office of Engineering and Construction requests a time extension of 33 calendar days as a result of Baltimore Gas & Electric (BGE) design delays. This was reviewed by the Project Controls Office and it was determined that there was an excusable delay due to BGE design delays. However, at the same time the contractor experienced an inexcusable delay which involved the submittal, fabrication, and delivery of the centrifugal pumps. The Office of Engineering & Construction determined it would grant a time extension for the difference between the excusable BGE delay, and the inexcusable pump delays. As per Project Controls review report dated January 31, 2018, the difference between the BGE and centrifugal pump delays is 33 calendar days.

The project scope includes construction phase engineering and inspection assistance services for the proposed installation of a temporary sodium hypochlorite feed facility, replacement of four existing pumps and ancillary equipment, construction of new electrical and hypochlorite building, installation of a second BGE feeder, installation of a new substation and Motor Control Center, a new bridge building crane, a new heating ventilation & air conditioning (HVAC) system,
